

Tools required for Bed assembly	
---------------------------------	--

Components:	Bed head end, Bed foot end, 2 x side rails, 12 x Mattress slats.
--------------------	--

1. Place sides in position & secure using the Allen Key (C) for the long bolts (B) & barrel nuts (A) as shown in diagram.

2. Spread the slats out evenly across the ribs on the side rails ensuring the gap between each rail is greater than 60mm, but no more than 75mm

Fix the slats to the rib using the mattress slat woodscrews (D).

Fittings:-

Barrel nut (A)	M6 long bolt (B)	Allen Key (C)	Mattress slat woodscrews (D)
8	8	1	24

Care of your Bed: Do not use abrasive detergents on this product. A wipe with a damp cloth should be sufficient to keep your bed clean. Periodical tightening of bolts is recommended. This product is primarily produced from properly managed forests of quality Scandinavian Redwood. As such, you may find small knot or surface defects that are inherent with a natural resource and in no way compromises its use.

MANUFACTURED IN THE UK.
